1. Receipt is acknowledged of the response filed on 7/2/2003.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese Publication 11-315835.

See paragraph 2 in paper number 5, mailed 3-3-2003.

4. Applicant's arguments filed 7-2-2003 have been fully considered but they are not persuasive. Contrary to applicant's contention, a teaching is not required ^{to provide} a suggestion for a modification. The standard is what "would have been obvious to one of ordinary skill in the art". To finish a bearing to a higher tolerance for better quality is not only obvious to one of ordinary skill in the art. It is a basic concept that is well known to the layman.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
